Det er lidt tricky at komme til indstillinger for Google Map Nearest. Man markerer den øverste cache i oversigten, holder "Shift" tasten nede mens der klikkes på en af de andre cacher.

The image shows a screenshot of the Google Maps Nearest V3 settings dialog box overlaid on a map of Søby Sø. The dialog box has a title bar 'Google Maps V3' and a close button. It contains two main sections: 'Options' and 'Text Labels'. In the 'Options' section, 'Number of nearest caches' is set to 10, 'Show Child Waypoints' is unchecked, 'Use Original Coordinates' is unchecked, 'Use Scroll Wheel Zoom' is checked, 'Keep Map Focus' is unchecked, 'Show Separation Circles' is unchecked, and 'Circle Radius (0 to hide)' is set to 0. In the 'Text Labels' section, 'Show Text Labels' is unchecked. There are two groups of radio buttons for 'Name.', 'Code.', and 'SmartName.' on the left, and 'Small.', 'Medium.', and 'Large.' on the right. The 'Large.' radio button is selected. At the bottom, there is an 'OK' button with a green checkmark and the version number 'v0.3'. A table of cache data is visible in the background, with the row for '154 Forfoden et forhenværende træ / By a stump' highlighted in cyan. Two red arrows point from text boxes to the 'Number of nearest caches' and 'Use Scroll Wheel Zoom' settings.
